04-Violation Error:

The screenshot shows a web browser window with the address bar displaying `127.0.0.1:5500/docs/`. The page content includes a small image of a dog, a message "Your pet is happy! Keep up the good work!", and several statistics: "Weight: 5 pounds", "Happiness: 10 tail wags (per min)", and "Energy: 10 energy". Below these are four buttons: "Treat", "Play", "Exercise", and "Pet". At the bottom, there is a section titled "Project 2 DevTools Lab" with a grid of buttons: "Run All Logs", "Activate 404 Error", "Activate TypeError", "Activate Violation", "Reproduce Bug", "Apply Fix", and "Breakpoint Demo".

The DevTools console is open, showing a violation message: `[Violation] 'click' handler took 271ms docs/:55`. Below the message, there is a hint: `> (ctrl)(i) to turn on code suggestions. Don't show again`.

05/06-Reproducing a Bug & Fixing:

The screenshot shows a web browser window with the address bar displaying `127.0.0.1:5500/docs/`. The page content includes a small image of a dog, the text "Your pet is happy! Keep up the good work!", and three statistics: "Weight: 5 pounds", "Happiness: 10 tail wags (per min)", and "Energy: 10 energy". Below these are four buttons: "Treat", "Play", "Exercise", and "Pet". At the bottom, there is a section titled "Project 2 DevTools Lab" with several interactive buttons: "Run All Logs", "Activate 404 Error", "Activate TypeError", "Activate Violation", "Reproduce Bug", "Apply Fix", and "Breakpoint Demo".

The browser's developer tools are open, showing the "Console" tab. A red error message is displayed: "Uncaught ReferenceError: undefinedVariable is not defined" at `script.js:181`. The stack trace indicates the error occurred at `reproduceBug (script.js:181:19)` and `HTMLButtonElement.onclick (docs/:56:42)`. A hint suggests pressing `ctrl+i` to turn on code suggestions.

10-Filter By Message Source:

The screenshot shows a web browser window with the address bar displaying `127.0.0.1:5500/docs/`. The page title is "Your Giga Pet". The main content area has a dark background and features a small image of a dog. Below the image, the text reads: "Your pet is happy! Keep up the good work!". Further down, the status is displayed: "Weight: 5 pounds", "Happiness: 10 tail wags (per min)", and "Energy: 10 energy". There are four buttons stacked vertically: "Treat", "Play", "Exercise", and "Pet". At the bottom, the text "Project 2 DevTools Lab" is visible, followed by a grid of buttons: "Run All Logs", "Activate 404 Error", "Activate TypeError", "Activate Violation", "Reproduce Bug", "Apply Fix", and "Breakpoint Demo".

The browser's DevTools Console is open on the right side. The "Console" tab is selected, showing a list of messages. The messages are grouped under the heading "Grouped Logs". The first message is "This is a log message inside a group." (script.js:154). The second message is "This is a warning message inside a group." (script.js:155), which is highlighted with a yellow background and a warning icon. The third message is "This is a log message inside a group." (script.js:156). At the bottom of the console, there is a prompt: "> | (ctrl) (i) to turn on code suggestions. Don't show again".

13-Using a BreakPoint & Scope Pane:

The screenshot displays a web browser window with the URL `127.0.0.1:5500/docs/` and a Chrome DevTools interface. The browser shows a page titled "Your Giga Pet" with a dog image and a "Paused in debugger" overlay. The page content includes:

Your pet is happy! Keep up the good work!

Weight: 5 pounds
Happiness: 10 tail wags (per min)
Energy: 10 energy

Treat
Play
Exercise
Pet

Project 2 DevTools Lab

Run All Logs
Activate 404 Error
Activate TypeError
Activate Violation
Reproduce Bug
Apply Fix
Breakpoint Demo

The Chrome DevTools interface shows the "Sources" pane with the `script.js` file open. A breakpoint is set at line 194, column 17, which is highlighted in yellow. The "Scope" pane shows the current scope, including `this: Window`, `sum: <value unavailable>`, `x: 10`, `y: 20`, and `Global`. The "Console" pane shows a message: `No user m...`.

14-Using Watch Expressions:

The screenshot displays a web application on the left and its developer tools on the right. The web application, titled "Your Giga Pet", shows a dog image and text: "Your pet is happy! Keep up the good work!", "Weight: 5 pounds", "Happiness: 10 tail wags (per min)", and "Energy: 10 energy". It includes buttons for "Treat", "Play", "Exercise", and "Pet", and a "Project 2 DevTools Lab" section with buttons for "Run All Logs", "Activate 404 Error", "Activate TypeError", "Activate Violation", "Reproduce Bug", "Apply Fix", and "Breakpoint Demo".

The developer tools on the right show the "Sources" panel with a breakpoint set at line 194 in the `script.js` file. The code snippet is:

```
194 let sum = x + y; // Set a breakpoint
195 console.log("The sum of x and y is:");
196 }
```

The "Watch" panel shows the expression `x + y: 30`. The "Console" panel shows the message: `ctrl+i to turn on code suggestions. Don't show again`.

15-Using Console W/ Breakpoint:

The screenshot displays a web browser window with the URL `127.0.0.1:5500/docs/`. The page content includes a dog image, a status bar indicating "Paused in debugger", and a sidebar with buttons: "Treat", "Play", "Exercise", and "Pet". The main text on the page reads: "Your pet is happy! Keep up the good work!", "Weight: 5 pounds", "Happiness: 10 tail wags (per min)", and "Energy: 10 energy". At the bottom, there is a "Project 2 DevTools Lab" section with buttons for "Run All Logs", "Activate 404 Error", "Activate TypeError", "Activate Violation", "Reproduce Bug", "Apply Fix", and "Breakpoint Demo".

Chrome DevTools is open, showing the "Sources" panel with a file tree on the left and a code editor on the right. The file tree shows a directory structure with files like `script.js`, `style.css`, and `fiveserver.js`. The code editor shows the `script.js` file with a breakpoint set at line 194, column 17, which is `let sum = x + y; // Set a breakpoint`. The "Breakpoints" panel on the left shows the breakpoint is active. The "Console" panel at the bottom shows a message: "Paused on breakpoint". The "Watch" panel on the right shows the expression `x + y: 30`.

```
172 }
173
174 function activateViolation() {
175   // Create a long-running loop to tri
176   for (let i = 0; i < 1e9; i++) {}
177 }
178
179 function reproduceBug() {
180   // This function intentionally conta
181   console.log(undefinedVariable);
182 }
183
184 function fixBug() {
185   // This function fixes the bug by de
186   var undefinedVariable = "Now it's de
187   console.log(undefinedVariable);
188 }
189
190 function breakpointDemo() {
191   // This function demonstrates the us
192   let x = 10; x = 10
193   let y = 20; y = 20
194   let sum = x + y; // Set a breakpoint
195   console.log("The sum of x and y is:
196 }
```
